

International Ladies Fit Guide

How to Measure:

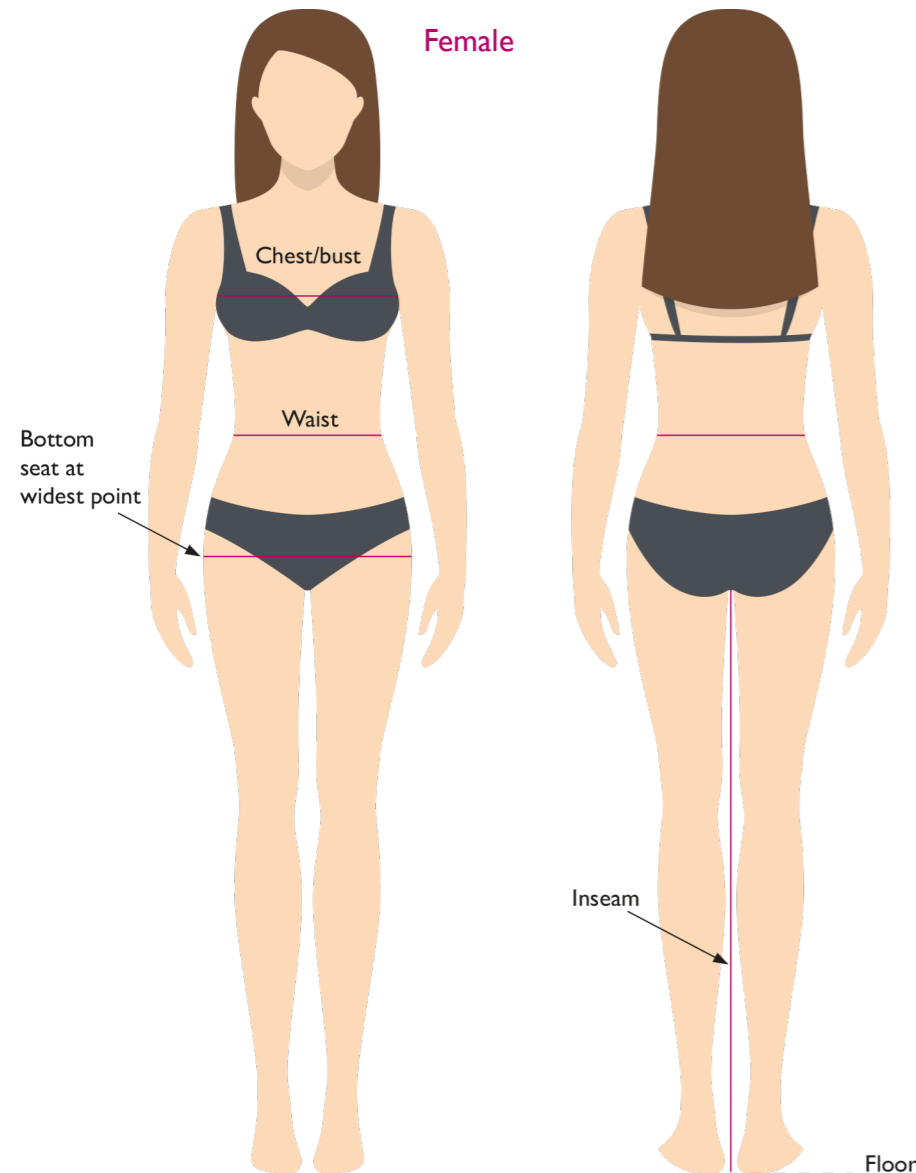

Using a tape measure, have someone take your measurements as noted below.

Bust Measurements: Measure the chest with the tape measure underneath the arms, across the shoulder blades, and over the fullest part of the bust. The measuring tape should be snug but not tight.

Waist Measurements: Measure the natural waist at the smallest part of the waist. The measuring tape should be snug but not tight.

Hip Measurements: Stand with your heels together and measure around the fullest part of your hips. The measuring tape should be snug but not tight.

Inseam Measurements: Measure inside leg seam from crotch seam to hem on a pair of similar style trousers (not jeans). Alternatively, measure on body from crotch to floor with tape measure.

How to determine size:

Take your body measurements and use the chart above to determine the correct size to order. See below for additional information.

Jackets, Sweaters, Coats: Order the size closest to your chest measurement. For individuals where the waist size is larger than the chest size, order the size closest to the waist size.

Shirts: Order based on your actual neck size. Order your sleeve length based on your sleeve measurements.

Trousers: Order the size that corresponds to your waist measurement.

How to determine length:

Short: For heights 5'3" and under, you would normally take a Short fit. The overall jacket and sleeve length will be shorter and the waist placement will be higher than a Regular.

Regular: If your height is between 5'4" and 5'7", you would normally order a Regular fit.

Long/Tall: For heights 5'8" to 5'11", you would normally take a Long fit. The overall jacket and sleeve length will be longer and the waist placement will be lower than a Regular.

International Mens Fit Guide

Chest Measurements: Measure the chest with the tape measure underneath the arms, across the shoulder blades, and over the fullest part of the chest. The measuring tape should be snug but not tight.

Waist Measurements: Measure the natural waist. Place your index finger between the tape for a comfortable fit.

Neck Measurements: Measure around the mid point of your neck. Place your index finger between the tape and your neck for a comfortable fit.

Inseam Measurements: Measure from crotch seam to hem at the inside leg seam on a pair of similar style trousers (not jeans). Alternatively, measure on body from crotch to floor with tape measure.

Hip Measurements: Stand with heels together & measure around the fullest part of your Hips. The measuring tape should snug but not tight.
